CIVIL REGISTRATION SYSTEM IN NAGALAND ANNUAL REPORT 2021

Published by:
**GOVERNMENT OF NAGALAND
DIRECTORATE OF ECONOMICS AND STATISTICS
NAGALAND : KOHIMA**

PREFACE

Births and Deaths are the two most important vital events that define life of an individual. Not only do they describe the legal existence of an individual, registrations of these events are a primary source of vital data of the population to which they belong. Civil registration is a continuous, permanent, compulsory recording of the occurrence and characteristics of vital events, like births, deaths, and still births. The vital statistics are invaluable for planning, monitoring and evaluating various programmes related to primary health care, family planning, maternal and child health, gender.etc. Information collected through registration process about vital events provides useful and important statistics.

Registration of Births and Deaths Act, 1969 envisage uniform procedure for registration of vital events through-out the country. Section 4(4) and 19(2) of the Act lays down that the Chief Registrar of Births and Deaths in the state has to prepare an annual report on the implementation of the Act and submit the same to both Union and State Governments.

The Statistical tables in this Annual Report -2021 are in accordance with the model tables defined in the RBD rules, 1999 and are in accordance with the Office of Registrar General of India (ORGI), Government of India.

I hope that the information in this report will facilitate the need of data users and planners of the health related programmes.

I thank the Registering functionaries and all the stakeholders at various levels for collation of the Report.

Suggestions are gladly welcome for the improvement of this report.

1. ANNUAL REPORT ON THE WORKING OF REGISTRATION OF BIRTHS & DEATHS ACT 1969 FOR THE YEAR 2021

Registration of Births & Deaths in Nagaland is implemented as per the Nagaland Registration of Births & Deaths model Rules, 1999. These Rules were framed & amended based on the Registration of Births & Deaths Act, 1969. This report covers details of the registration procedures, difficulties experienced, shortfalls and efforts made for the improvement of the registration system in the State. The data included in the report are the registered events provided by the Registrars of Births & Deaths in Nagaland

1.1 BRIEF DESCRIPTION OF THE STATE, ITS BOUNDARIES AND REVENUE DISTRICTS

Nagaland lies between 25°60 and 27°40 latitude North of Equator and between the longitudinal lines 93°20E and 95°15E. The State is bounded on the east by Myanmar, on the South by Manipur, on the west and north by Assam and on the north-east by Arunachal Pradesh. The topography is marked by hilly ranges. The altitude varies between 194 metres and 3048 metres. Most of the thousand odd villages stand at 1000 to 2000 metres above sea level.

1.2. AREA AND ADMINISTRATIVE DIVISIONS

Nagaland is the sixteenth state of the Indian Union which attained statehood on the 1st December, 1963 with a total geographical area of 16,579 sq. km.

The State, at present comprises of 11* (eleven) districts headed by a Deputy Commissioner, 133 (one hundred thirty three) Sub-Divisions/Circles. These Sub-Divisions/Circles are headed by Additional Deputy Commissioners, Sub-Divisional Officers (Civil) and Extra Assistant Commissioners (E.A.C). There are seventy four (74) Rural Development Blocks headed by a Block Development Officer. There are seven (7) Census towns. The State Capital Kohima is situated at an altitude of 1,444 metres. Dimapur city is the main commercial hub which is linked by Rail Road and Air.

As per the Survey on Number of Villages in Nagaland 2021, Nagaland has a total of 1355 villages and 1(one) uninhabited village (Ghelhang village in Peren District) as on 1st March 2021. Out of the total, 1280 villages are recognized by the Government of Nagaland and 75 villages are unrecognized. In addition to the 1355 villages, Nagaland has a total of 111 hamlets {*a settlement with less than 30 households if it fails to qualify the definition given by the Nagaland Village Councils Act 1978: clause 3(a) and (b)*}.

Other features of the State according to 2011 Census are as under:

1.	Population	1978502
2.	i. Males	1024649
	ii. Females	953853
	iii. Urban Population	570966
	iv. Rural Population	1407536
3.	Growth rate	-0.58
4.	Sex- ratio (female per 1000 males)	931
5.	Literate population	1342434
6.	Percentage of literacy	79.6
7.	Density of population (per sq. Km)	119
8.	Number of villages (inhabited)	1400 as per 2011 Census
9.	Official languages	English
10.	Highest Peak	Mount Saramati (3840 metres)
11.	Tribes:	Angami, Ao, Chakesang, Chang, Khiamniungan, Kuki, Konyak, Kachari, Lotha, Phom, Pochury, Rengma, Sumi, Sangtam, Yimchungrü, Zeliang.

**excluding Noklak and other districts created thereafter.*

1.3. ADMINISTRATIVE SET UP OF THE REGISTRATION MACHINERY AT VARIOUS LEVELS

The revamped Model Registration of Births & Deaths Rules, 1999 introduced by the Government of India was adopted in the State which was notified through the Gazette Notification dated 30-9-2000 and thereby introduced the “Nagaland Registration of Births & Deaths (Amendment) Rules 1999 replacing the State RBD Rules 1972.

The Directorate of Economics & Statistics has been functioning as the Nodal department for implementation of the Registration of Births & Deaths scheme in the State since 1974.

The Registration hierarchy in the State at various levels as under:

A. STATE LEVEL:

1.	Chief Registrar of Births & Deaths	- Commissioner & Secretary, Economics & Statistics
2.	Addl. Chief Registrar of Births & Deaths	- Director of Economics & Statistics
3.	Joint Registrar of Births & Deaths	- Additional Director, Economics & Statistics
4.	Deputy Registrar of Births & Deaths	- Deputy Director of Economics & Statistics.

B. DISTRICT LEVEL

1. District Chief Registrar of Births & Deaths - Deputy Commissioner concerned
2. District Registrar of Births & Deaths - District Statistical Officer concerned
3. Circle Registrar of Births & Deaths - Concerned SDEO of the Jurisdiction

C. LOCAL LEVEL

1. Registrar of Births & Deaths in Rural areas - Head Teacher of Govt. Primary School (Concerned)
2. Registrar of Births & Deaths in Urban areas - Inspector of Statistics/ Field Investigator
3. Military/Para Military areas - Organizational Officer
4. Medical Institutions (Govt./Private) - Inspector of & Statistics/Field Investigator
 - i) District Hospitals- Nursing Superintendent
 - ii) Community Health Centre- Nursing in-charge
 - iii) Primary Health Centres- Nursing in-charge

(Vide Notification No. HFW-28/B/8/2011 Dt. 12 August 2014)

1.4. REGISTRATION CENTRES

There are 1464 registration centers functioning in the State as of April 2021. Out of these 1432 are in the rural areas and 32 in the urban areas.

(1) Rural Registration centers: In the Rural Areas a registration unit has been set up in each recognized village of the State, manned by the Head Teacher of Government Primary School as the Registrar of births & deaths for their concerned village with effect from 1-12-2006.

(2) Urban Registration centers: In the Urban Areas (District Headquarters) a Registration Unit has been set up in the office of the District Registrar of births & deaths (District Economics and Statistics Officer). Besides, a registration unit has also been opened in all the Govt. District Hospitals for registering all vital events occurring in Medical Institutions. A registration unit has been opened in Kohima Town Municipal office and Dimapur Municipal office.

The department of Economics & Statistics had attached Statistical staff at the rank of Inspector of Statistics and Field Investigator to function as the Registrar of Births and Deaths in the Urban Registration units.

1.5. REGISTRATION PROCEDURE:

Events are registered as per the rules provided in the various sections of the Act by the Registrars concerned. According to the Section 8 and 9 of the Registration of Births & Deaths Act 1969, Birth, Death and Still Birth can be registered only by the Registrar of the area of the place of its occurrence. Events that occurred in Urban and Rural area can be registered at the following places.

(1) Urban Area: In Urban area events can be registered in the concerned District Registrar's office/ Municipal Offices and Medical Institutions where registration centers had been set up.

In urban areas, head of the household in case of domiciliary event and incharge of institution in case of institutional events, are responsible to report the vital events to the concerned Registrar.

Events occurring in Government Medical Institutions will be registered in the Institution itself with the Registrar of births & deaths attached to the concerned Institution.

(2) Rural Areas: In rural areas, vide Notification No.ES/RBD-8/04/2003 dated 7/7/2003, the Village Council Chairman, Gaonburas, Anganwadi workers & Dhai workers has been made responsible to further report these events to the village Registrar. Events can also be reported directly to the Registrar by the head of the household. The ASHA's has been designated as Notifiers of Births & Deaths under notification No.NRHM/NL/15-15/CRS/2012-13/3521 dated 19th November 2012.

1.6. INTER-DEPARTMENTAL CO-ORDINATION COMMITTEE

IDCC meeting could not be conducted during 2021 due to Covid -19 pandemic.

A. State Level Co-ordination Committee on Registration of Births & Deaths

- | | |
|---|------------------------|
| 1. Commissioner & Secretary, Economics & Statistics and Chief Registrar of Births & Deaths, Nagaland, Kohima. | - Chairperson |
| 2. Director of Economics & Statistics & Addl. Chief Registrar of Births & Deaths, Nagaland, Kohima. | - Member/
Secretary |
| 3. Director, Rural Development, Nagaland, Kohima. | - Member |
| 4. Director, Census Operations, Nagaland, Kohima. | - Member |
| 5. Principal Director, Health & family Welfare, Nagaland, Kohima. | - Member |
| 6. Director of Information & Public Relations, Nagaland, Kohima | - Member |
| 7. Director of School Education, Nagaland, Kohima. | - Member |
| 8. Director, Social Security & Welfare, Nagaland, Kohima. | - Member |
| 9. Addl. Director, Economics & Statistics and Joint Chief Registrar of Births & Deaths | - Member |

10. Deputy Director, Economics & Statistics &
Deputy Chief Registrar of Births & Deaths, Nagaland, Kohima. - Member

B. District Level Co-ordination Committee of Births & Deaths

1. Deputy Commissioner & District Chief Registrar of Births & Deaths - Chairman
2. District Economics and Statistical Officer and District Registrar of Births & Deaths - Member Secretary
3. District Medical Superintendent/ Civil Surgeon - Member
4. District Education Officer - Member
5. District Information & Public Relation Officer - Member

1.7. MEDICAL CERTIFICATION OF CAUSE OF DEATH

Medical Certification of causes of Death has been implemented under section 10(3) of Registration of Births & Deaths Act 1969. The scheme on Medical Certification of causes of Death has been introduced in the year 1976 in Nagaland. This Scheme is presently being implemented only in the urban areas of the state, where majority of the medical institutions are functioning. At present eleven (11) Government hospitals are covered under the scheme.

Medical Institutions functioning in the rural areas are not yet covered under MCCD. In these institutions though the treatment is available, deaths reported are almost negligible. It may be due to the fact that, the most serious patients are referred from rural institutions to urban institutions, in the absence of proper treatment facilities.

1.8. TRAINING ON MEDICAL CERTIFICATION OF CAUSE OF DEATH

No training programme was conducted during 2021 due to Covid -19 pandemic.

1.9. ISSUE OF BIRTH & DEATH CERTIFICATES

The extract from birth and death register is issued on Form No. 5 and 6 respectively under Section 12 and 17 of the Registration of Births & Deaths Act 1969. Prescribed fee is however charged for the issue of such extract as per Rule 9 of the Nagaland Registration of Births & Deaths Rules 1999. Registrars of both rural and urban areas were directed to issue certificate under Section 12 to each and every informant reporting event in time.

i. Delayed Registration:

SL. No.	Time limit for delayed registration	Formalities needed to observed	Late fee
1	1 to 21 days of occurrence	-	Free registration
2	21 - 30 days of occurrence	Permission of the Registrar	Rs 10/-
3	After 30 days but within one year of occurrence	Production of an affidavit made before a notary public, inquiry report of the concerned Registrar, prove of date of birth/death, residence proof.	Rs 20/-
4	After one year of occurrence	<div>1. An order of the first class Magistrate or a presidency Magistrate.</div> <div>2. Inquiry report of the concerned Registrar, Proof of date of birth, residence proof.</div>	Rs 30/-

Section 13 of RBD Act 1969 and Under Rule 9(1) (2) (3) of the Nagaland Registration of Births & Deaths (Amendment) Rules 1999 lays down the procedure for registration of vital events reported after the expiry of stipulated normal reporting period which are as below:

1.10. MAINTENANCE AND RECORDS

The local Registrars are required to maintain the record of all births, deaths and still births in separate registers. Every year on the first of January, new Registers are opened by the local Registrars. The registers related to rural registration centers are transferred to the District Registrar's Office for maintaining on permanent basis after the close of the year. Efforts are required to preserve these historical records considering its legal value.

1.11. PUBLICITY

The Department has been taking various steps for publicizing on the importance of Registration of Births & Deaths, which were exhibited to the public in the form of Posters, Pamphlets, Wall hangers, Billboards etc. with the messages of Births & Deaths. More Publicity Campaigns on Registration of Births & Deaths is required to create awareness on the importance of Registration of Births & Deaths

1.12. TRAINING

No training programme was conducted during 2021 due to Covid -19 pandemic.

1.13. INSPECTION

Inspection to selected Registration units were done from time to time from the headquarter office. The District Registrars and Circle Registrars were instructed to carry out inspection of the Registration units under their respective jurisdictions. Owing to huge number of Registration units and financial constraint, cent percent inspection could not be undertaken during the year 2021.

1.14. PRINTING OF FORMS & REGISTER

During 2021 the forms and certificates and register of births, deaths and still births were made available in time and in sufficient quantity, to all the Registration centers both in the rural and urban areas through the District Registrars (DESOs).

1.15. PROSECUTION AND COMPOUNDING OFFENCES

There was no report on prosecution of compounding during 2021.

1.16. DIFFICULTIES ENCOUNTERED IN IMPLEMENTATION OF THE ACT

Implementation of the Registration of Birth & Deaths in the State is hindered by the following factors:

1. Inadequate postal facilities.
2. Inadequate transportation/communication facilities.
3. Low level of awareness.
4. Lack of remuneration for CRS functionaries.
5. Delay in submission of returns from Registrars.

1.17. COMPARATIVE ACHIEVEMENT

Births & Deaths registered in Rural and Urban areas of the State for the last 5 (Five) years have been presented in the following table:

SL. NO.	YEAR	AREA	Number of Births Registered	Number of Deaths Registered
1	2017	Rural	34156	551
		Urban	34965	1285
		Total	69121	1836
2	2018	Rural	34961	342
		Urban	12396	486
		Total	47357	828

3	2019	Rural	53095	802
		Urban	24611	1464
		Total	77706	2266
4	2020	Rural	28306	652
		Urban	17773	1857
		Total	46079	2509
5	2021	Rural	36976	624
		Urban	28012	3156
		Total	64988	3780

1.18. INFORMATION IN RESPECT OF ISSUANCE OF EXTRACT/ CERTIFICATE UNDER SECTION 12 AND 17 OF RBD ACT, 1969

64988 Births and 3780 Deaths Certificates under section 12 were issued in 2021. Issuance of extract under section 17 is nil.

1.19. COMPUTERISATION

- (a) Births & Deaths data is compiled through computerization in every district headquarter.
- (b) Currently the Registration units in the village/block level are functioning manually only.
- (c) The department is taking concrete steps to upgrade the ICT capability of the district headquarters for implementation of the Civil Registration System (CRS) software for online registration through ORGI portal

1.20. GENERAL REMARKS

The Level of registration has considerably improved in the urban areas with the persistent efforts of the staff deployed for the purpose and the organizational measures taken in the recent years.

1.21. CONCLUSION

For the successful implementation of the provisions of Registration of Births & Deaths, imparting trainings at regular intervals should be conducted with the financial assistance from the ORGI. In all the training programmes, Registrars have shared their grievances regarding lack of honorarium. This issue needs to be addressed. Large scale publicity campaign on the importance of Registration of Births and Deaths are required to create awareness among the people especially in the Rural and remote areas of the state for which financial assistance from the ORGI is needed. There is the need to resolve the problem of submission of reports from the Registration units especially for Registration units located in remote areas of the state where transportation facility and internet connectivity are lacking.

2. Concepts and Methodology for Calculating Vital Indicators

2.1 Live Birth:

Complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life, and each product of such birth is considered live-born.

2.2 Still Birth:

Fetal death where a product of conception has attained at least the prescribed period of gestation.

- Crude Birth Rate (CBR)
$$= \frac{\text{Number of live births registered during the year}}{\text{Mid- year population}} \times 1000$$

2.3 Death:

Permanent disappearance of all evidence of the life at any time after live birth has taken place.

- Crude Death Rate (CDR)
$$= \frac{\text{Number of deaths registered during the year}}{\text{Mid- year population}} \times 1000$$

2.4 Infant Death:

Death of child less than one year old.

- Infant Mortality Rate (IMR)
$$= \frac{\text{Number of infant death registered during the year}}{\text{Number of live birth registered during the year}} \times 1000$$

2.5 Still Birth Rate:

- Still Birth Rate (SBR)
$$= \frac{\text{Number of still births registered during the year}}{\text{Number of live births and still births registered during the year}} \times 1000$$

2.6 Level of Registration:

The level of registration, defined as the percentage of registered births/deaths to the births/deaths estimated through Sample Registration System (SRS), determines the performance level of a State/ Union territory with regard to functioning of Civil Registration System.

- Level of Registration (LOR)

$$= \frac{\text{No. of events registered during the year}}{\text{No. of estimated events for the year}} \times 100$$
- SRS provides reliable estimates of infant mortality rate, birth rate, death rate and other fertility and mortality indicators at the national and sub-national levels. It is a large-scale demographic survey conducted every year by Office of the Registrar General, India in all States/Union Territories.

2.6 Mid-year Population:

- Population at the mid-point of the year, i.e., 1st July of the year.
- Number of estimated events for a year = mid –year population x SRS Rate.
- Sex Ratio at birth (SRB)

$$= \frac{\text{Number of female births registered during the year}}{\text{Number of male births registered during the year}} \times 1000$$

2.7 Gross Natural addition to the Population

= Total Registered Births – Total Registered Deaths.

2.8 Rate of Natural Increase = CBR – CDR

2.9 Maternal Mortality Rate

$$\text{MMR} = \frac{\text{Registered number of maternal death}}{\text{Number of live births}} \times 100000$$

2.10 Under-five Mortality Rate

The under-five mortality is the probability (5q0) that a child born in a specific year or time period will die before reaching the age of five, subject to current age specific mortality rates. It is expressed as a rate per 1000 live births.

2.11 Number of Monthly Returns due

The number of Summary Monthly Report, i.e, Forms No. 11 (Birth), 12 (Death) and 13 (Still Birth) presented in a concise single page that every Registration Unit is supposed to submit in a month. Thus, one registration unit is expected to send 12 reporting forms in a year.

2.12 Adjusted for incomplete Receipt of Returns

$$= \frac{\text{Estimated Mid-Year Population}}{\text{No. of Monthly Returns Received}}$$

3. List of tables

Table no.	Title	Page no.
1.1	Vital statistics by district in rural areas during 2021	12
1.2	Vital statistics by district in urban areas during 2021	13
2	Number of births, deaths and infant deaths by sex, maternal deaths and still births registered during 2021	14
3	Number of births, deaths and infant deaths by sex, maternal deaths and still births registered during 2021 (consolidated) during 2021	15
4	Vital rate by districts during 2021	16
5	Vital statistics for towns with population 30,000 and above during 2021	17
6	Number of live births by type of delivery attention during 2021	17
7	Number of deaths by type of medical attention received during 2021	18
8	Number of deaths by age and sex during 2021	19
9	Medically certified deaths by age and sex according to national list of tenth revision of icd during 2021	20-52
9.1	Age-wise death registered under the major group of cause of death during 2021	52-53
9.2	Major group of cause of death registered in nagaland in 2021	53-54
10	Vital statistics by religion during 2021	54
11	Vital statistics by month and sex during 2021	55
12.1	Live births by birth order and age of mother in rural areas during 2021	56
12.2	Live births by birth order and age of mother in urban areas during 2021	56
13.1	Live births by birth order and literacy of mother in rural areas during 2021	57
13.2	Live births by birth order and literacy of mother in urban areas during 2021	58
14.1	Live births by birth order and literacy of father rural areas during 2021	58-59
14.2	Live births by birth order and literacy of father in urban areas during 2021	59
15.1	Live births by birth order and occupation of father in rural areas during 2021	60
15.2	Live births by birth order and occupation of father in urban areas during 2021	60-61
16.1	Live births by birth order and father's religion in rural areas during 2021	61
16.2	Live births by birth order and father's religion in urban areas during 2021	62
17	Deaths by occupation and sex during 2021	63
18	Infants deaths by sex & age during 2021	63
19	Maternal deaths by age during 2021	64
20.1	Time gap in registration of live births and deaths in rural during 2021	64-65
20.2	Time gap in registration of live births and deaths in urban during 2021	65-66
20.3	Time gap in registration of live births and deaths (combined) during 2021	66-67

ANNUAL BIRTHS & DEATHS STATISTICAL REPORT 2021

4. VITAL STATISTICS BY DISTRICT

Civil Registration System (CRS), popularly known as birth and death registration system, is the recording of vital events i.e. Birth, Death & Still Birth under the statutory provisions on continuous and permanent basis. CRS falls under the Concurrent list of the Constitution of India at Sl. No. 30. Vital statistics generated from civil registration significantly contributes to the formulation of effective and efficient evidence-based policy across multiple sectors.

4.1 Vital Statistics by District in Rural areas

TABLE -1.1							
VITAL STATISTICS BY DISTRICT IN RURAL AREAS DURING 2021

As reflected in table-1.2, the total number of Registration Units in urban areas is 32 (2.18%) out of 1464 Registration units in Nagaland and 100% monthly return due is received.

5. NUMBER OF BIRTHS, DEATHS AND INFANT DEATHS BY SEX, MATERNAL DEATHS AND STILL BIRTH REGISTERED

The registration of birth and death is done under the provisions of a central Act namely Registration of Births and Deaths Act, 1969 and Nagaland Registration of Births & Deaths Model Rules, 1999. Under the provisions of RBD Act, 1969, the registration of birth and death is mandatory. The events of births, still births and deaths are registered in the place of occurrence of the event i.e. where the event took place. The normal period of reporting the event is 21 days from its occurrence, however, the event can be registered after the normal period under delayed registration provisions of Section 13 of the RBD Act.

Source: - Data Received from Registrars of Births and Deaths

Table-2 shows the number of births, deaths and infant deaths by sex, maternal deaths and still births registered in rural and urban areas. As reflected in table-2, the total number of births registered in rural areas is 36,976 out of which 18,374 (49.70 %) were male and 18,602 (50.30%) were female. It is notable that among the 11 districts in the State, Mon has the highest number of birth registered for the year 2021 with 14,724 (39.8 %) followed by Tuensang district (17%) and Phek has the lowest number of birth registered for both rural and urban. In urban areas, the total number of births registered were 28,012 out of which 14,020 (50.05%) were male and 13,992 (49.05 %) were female. Dimapur district has the highest number of birth registered in urban areas with more than 65 % (18,341) out of the total birth registered for the year 2021.

Comparing with 2020 reports, the total number of deaths registered increased from 2,509 to 3,780 in 2021 showing an increase of 50.65 percent. District wise data shows that among all the districts Kohima has the highest number of deaths registered with 164 (26.3%) and both Longleng and Phek has the lowest record with 5 each in rural areas. The highest number of deaths registered in urban areas is in Dimapur district with 59.63 percent (1,882) and the lowest is in Phek district with 7 only. For the year 2021, there was no registration on maternal deaths and still births and 3 male infant deaths were registered. The overall total births and deaths registered in the year 2021 is 64,988 and 3,780 respectively.

6. NUMBER OF BIRTHS, DEATHS AND INFANT DEATHS BY SEX, MATERNAL DEATHS AND STILL BIRTHS REGISTERED (COMBINED)

Source: - Data Received from Registrars of Births and Deaths

Table-3 depicts district wise number of births, deaths and infant deaths by sex, maternal deaths and still births registered during the year 2021 for both male and female. The given table revealed that Dimapur district has the highest record for birth registration with 22,128 (34.04 %) and Phek with the least record of 367 (0.56%). Dimapur being one of the most populated district in the State, it carries the highest percentage (50.68%) of deaths registered in 2021 followed by Kohima district with 14.20 percent. Further, 2 infant deaths were registered in Longleng district and 1 in Dimapur district.

Source: - Data Received from Registrars of Births and Deaths

Table-4 shows the vital rate of the 11 districts for the year 2021. As per the reports, Mon district has the highest birth rate (2.68) followed by Tuensang (2.35) and Dimapur (2.18) districts in rural areas whereas in urban areas, Dimapur has the highest birth rate (8.87) followed by Peren district (8.43) in 2021. For both rural and urban areas, the highest birth rate among the districts in 2020 was recorded in Mon district (4.74) whereas in 2021 the highest birth rate is in Dimapur district (6.00) and the least is recorded in Wokha district (0.49). The birth rate of Nagaland has decreased from 2.70 in 2020 to 2.54 in 2021. The death rate of Nagaland in 2020 was 1.89 and it increased to 1.93 in 2021. The highest death rate is from Dimapur district (9.54) and the least is in Phek district (0.04).

Source: - Data Received from Registrars of Births and Deaths

Table-6 shows the number of live births by type of delivery attention during 2021 for rural, towns with more than 30,000 population and all other urban areas. In rural areas, 8.48% received institutional attention at the time of delivery, 16.50% are monitored by the physician/nurse and trained mid wife, 42.3% of the total are delivered with the assistance of the

untrained midwife and the rest (32.7 %) are delivered by other type of delivery attention. In urban areas with population 30,000 above, the highest type of delivery attention received is from the Physician/Nurse and Trained Mid-wife (59%) followed by institutional (19%), Untrained Mid-wife (15%) and others (7%). In all other urban areas, other type of delivery attention has the highest record with 55% followed by Untrained Mid-wife (17%), institutional (16%) and Physician/Nurse and Trained Mid-Wife (12%).

10. NUMBER OF DEATHS BY TYPE OF MEDICAL ATTENTION RECEIVED

TABLE - 7

Table -9.1 shows the Age-wise death registered under the major group of cause of death, out of which, the highest death is registered under the age group of 45-54, 55-64 and 65-69 years (15% each) followed by the age group of 35-44 years (13.4 %). Out of the major group of cause of death given in table-9(I), the highest cause of death registered in Nagaland is due to Infection and Parasite disease (31.3%) followed by diseases of the Nervous system (23.9%) and Neoplasms (20.9%).

TABLE - 9.1
